

LIST NO 15

BOXED LOCOMOTIVES AND BOXED SETS

(List updated 19.4.08)

(Web Page updated 19.4.08)

The locomotives listed are in good working condition and in the majority of cases are unblemished. If there are any slight blemishes the blemishes will be noted. Those not in original boxes are being offered in replacement boxes and will be marked with an asterisk. However if replacement boxes are not required please mention when ordering and a £2 deduction will be made. Prior to careful packing each locomotive will be re-examined and retested. An indication of the paperwork included is given. 'Ins' marked against a locomotive indicates that an Instruction leaflet is included.
