

LIST NO.17

OTHER MANUFACTURER'S CATALOGUES

(List updated 17.11.09)
(Web Page updated 17.11.09)

It will be observed that few of the Catalogues listed have sequential Catalogue numbers. In a number of cases the Catalogues do not show the year of publication. These have been annotated with the letter A to indicate that the date shown has been assumed. Other information gleaned from the respective catalogue has been shown to help the reader to identify the catalogue(s) required. This information will include print numbers and original prices printed on the catalogues. Not all catalogues have price lists included but there will be no extra charge if a catalogue is available.
